

XDUPLIFY TOKEN (X)

WHITEPAPER V1.0

DISCLAIMER

XDuplify issues this whitepaper to describe the intended features of its platform. Any launch of the system by XDuplify will be subject to and conditional upon securing favorable legal and regulatory advice, consent, and/or licenses by all appropriate authorities and jurisdictions.

Nothing in this whitepaper or any of the information here or in any papers or materials referred to shall constitute the basis of any contract between XDuplify (or any of our holding companies, subsidiaries, related undertakings or controlling persons, or any of our respective officers, directors, employees, agents, representatives, partners or advisors) (“XDuplify Relevant Persons”) and any other person whatsoever.

Without limiting the preceding, no representation, undertaking, or warranty, express or implied, is made, and XDuplify or any XDuplify Relevant Person accepts no responsibility as to:

The accuracy, completeness, or otherwise of this whitepaper or the information (whether expressly or via a link to other materials on the Xduplify website) herein; The rationality and practicality of any assumption (either express or implied) contained therein; The correctness of any forecasts or the predicted or unpredicted behavior of any function, algorithm or system contained therein, including regarding future funding needs and performance of any systems or ledgers mentioned here.

Nothing in this whitepaper shall imply any obligation on the part of XDuplify to create any ledger system or otherwise execute what is proposed here or, if created, nothing here shall provide any form of warranty or assurance that any system or ledger will operate in the manner outlined in this whitepaper, whether or not read in light of any comments made regarding this whitepaper.

Neither XDuplify nor any XDuplify Relevant Person shall be liable for any consequential, direct, or indirect loss or damage incurred by anyone relying on any statement, information, or proposal contained in this whitepaper or any comments made regarding this whitepaper.

Any contributions, disclosures, ideas, improvements, inventions, suggestions, or other material made or provided to XDuplify or XDuplify Relevant Persons in response to this whitepaper or in the course of participation or discussion of any matters relating hereto, alongside any intellectual property or other rights as might otherwise apply, shall be accessible for XDuplify and any legal individual or institution acting by or with the authority of XDuplify to use the same without any limitation for commercial or non-commercial purposes in perpetuity globally and to publish or otherwise put the same into circulation.

XDUPLIFY Profit Share - Dual Investment

XDuplify brings a redefined way to invest through profit sharing and dual investment from XDuplify. The double investment system designed by XDuplify is a first in the crypto industry by going against high-risk rewards and introducing a low-risk - higher rewards system instead. In short, greater profits with less capital at risk. We achieved this by introducing a profit share dual investment system in crypto.

XDuplify - Reasons

Let us look closer at why XDuplify 's dual investment is the future of crypto.

Dual Investment

- XDuplify - Establishment fee charged
- XDuplify - Profit Share starts at a low 2% and increases weekly
- XDuplify - Dual Investment up to 6 months

Dual Investment

- XDuplify - Dual investment up to 5x investors' liquidity
- XDuplify - No interest charged ever.
- XDuplify - No exit fee charged
- XDuplify - Consolidate the investment at any time.
- XDuplify - Dual investment auto protection of investment
- XDuplify - Liquidity providers for dual investment earn BUSD income

XDuplify Token

- X Locker - BUSD paid
- X Lottery - Lottery (BUSD Payouts)

XDuplify TOKEN - X

XDuplify has implemented a continued value increase to the X token by ensuring the token is used in products developed for the public for continued growth.

Guidelines

XDuplify holds the right to initiate Increases or decreases in % across fees and to X token to ensure competitiveness in the market.

1

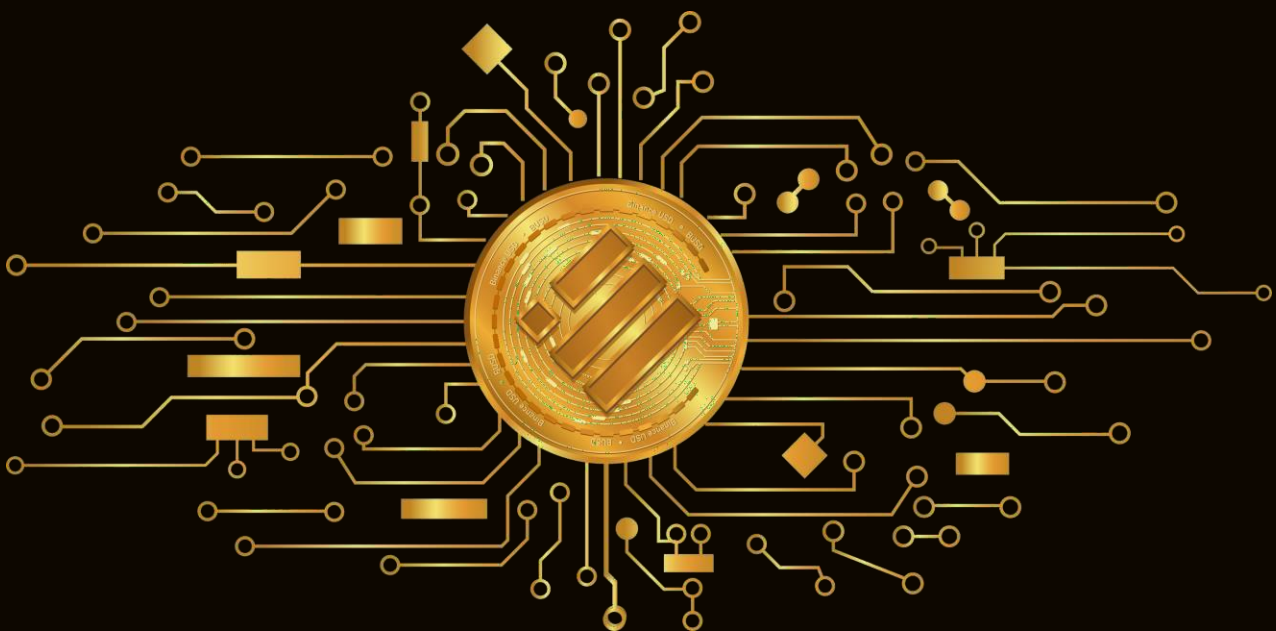

X Token buy /sell Tax - allocation to liquidity (Help ensure price stability)

2

X locker users receive BUSD off profit sharing and dual investment by depositing X.
(2% Entry fee of X goes to burnt wallet - No Lock in contract, withdraw anytime)

3

Establishment fee accumulated auto buys X and burns

4

Lottery Fee X tokens used to receive tickets for draw in lottery. All X tokens sent to burnt wallet. All Lottery winnings paid in BUSD and funded by Xduplify systems.

5

XDuplify (Proposed Self Investment Bot)

WHY XDuplify TOKEN

RISK MITIGATED & SYSTEMATIC GROWTH

With XDuplify a systematic risk mitigated continuous growth platform has been developed for the community with one mind in thought of the end-users ability to profit.

AUDITABLE AND TRANSPARENT

XDuplify data will be transparent and open to everyone on the platform. All acceptance information will be posted on the XDuplify website. This means that anyone can freely carry out an audit of XDuplify programs and security.

COMMUNITY-DRIVEN

XDuplify is designed to foster a community of crypto users. We want to empower people to participate more in the crypto market and benefit from it. The goal is to help many communities attain financial freedom through our platform.

XDuplify USE TOKEN

XDuplify has proposed a unique introduction that can be utilized globally across all cryptocurrency platforms. Thus, not only benefiting the broad crypto community but also a global network that can start integrating the systems on a massive scale—introducing and simplifying methodologies of new people into crypto and normalizing the distinction between the two platform systems.

CONCLUSION

DeFi offers an alternative where everyone can easily access innovative trading services. It is opening up a new world of trading innovation and democratization, which provides an open infrastructure of programmable assets that can significantly substitute and solve the limitations of traditional investing infrastructure.
